After a career in Information Technology Management, I am seeking a position as a Full Stack Web Developer. I recently completed an intensive Web Development boot camp at the University of Texas at Austin with an A+ average. While challenging, it was the most fun I've had in a long time. The experience gained in HTML, CSS, JavaScript, SQL/NOSQL databases, and React combined with my degree in Computer Science and my experience in IT management give me the tools to be a valuable asset.

TECHNICAL SKILLS

Languages: JavaScript, CSS3, HTML5, React

Applications: GitHub, MongoDB, MySQL, Visual Studio

Tools: Bootstrap, React

PROJECTS

Foodies-Digest | [GitHub Link](#) | [Deployed Project](#)

EXPERIENCE

Director of Information Services (CIO)

1997 - 2021

Texas Municipal Retirement System

Austin, TX

Key Job Duties:

- Led and managed the Software Development, Network Operations, and Records Management departments.
- Directed the Information Systems Manager, Network Operations Manager, and Records Manager in the implementation of the department's strategic plan. Built IT organization from a team of one employee to twenty-five full-time employees.
- Developed and managed the Information Resources' multi-million-dollar budget.
- Ensured customer satisfaction for internal departments as well as our members, cities, and retirees.
- Served as disaster recovery / business continuity / crisis management leader for TMRS. Shifted 100+ employees to completely remote work over 3/13/2020 – 3/15/2020 weekend.
- Prior to this role, I also served at TMRS as IS Manager, Systems Analyst, and Developer.
